

# ROCKY MOUNTAIN AMPHIBIAN PROJECT

## DEAR VOLUNTEERS,

Thank you all so much for another successful field season of monitoring Wyoming and northern Colorado's amphibians! While we eagerly await the arrival of summer and another fun RMAP season, let's look back at what you all accomplished in 2023.

# SURVEY RESULTS

**50+**  
**Surveyors**

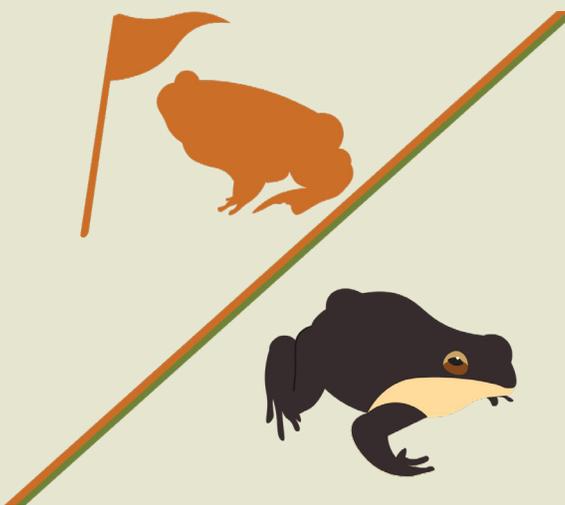

MB14\_4 Casey Black

BT11\_2 Tiger Salamander, Zoe Boyles and Carly Tryon

**31/69**  
**Catchments**  
**Surveyed**

**130**  
**Sites**

**315**  
**Surveys**

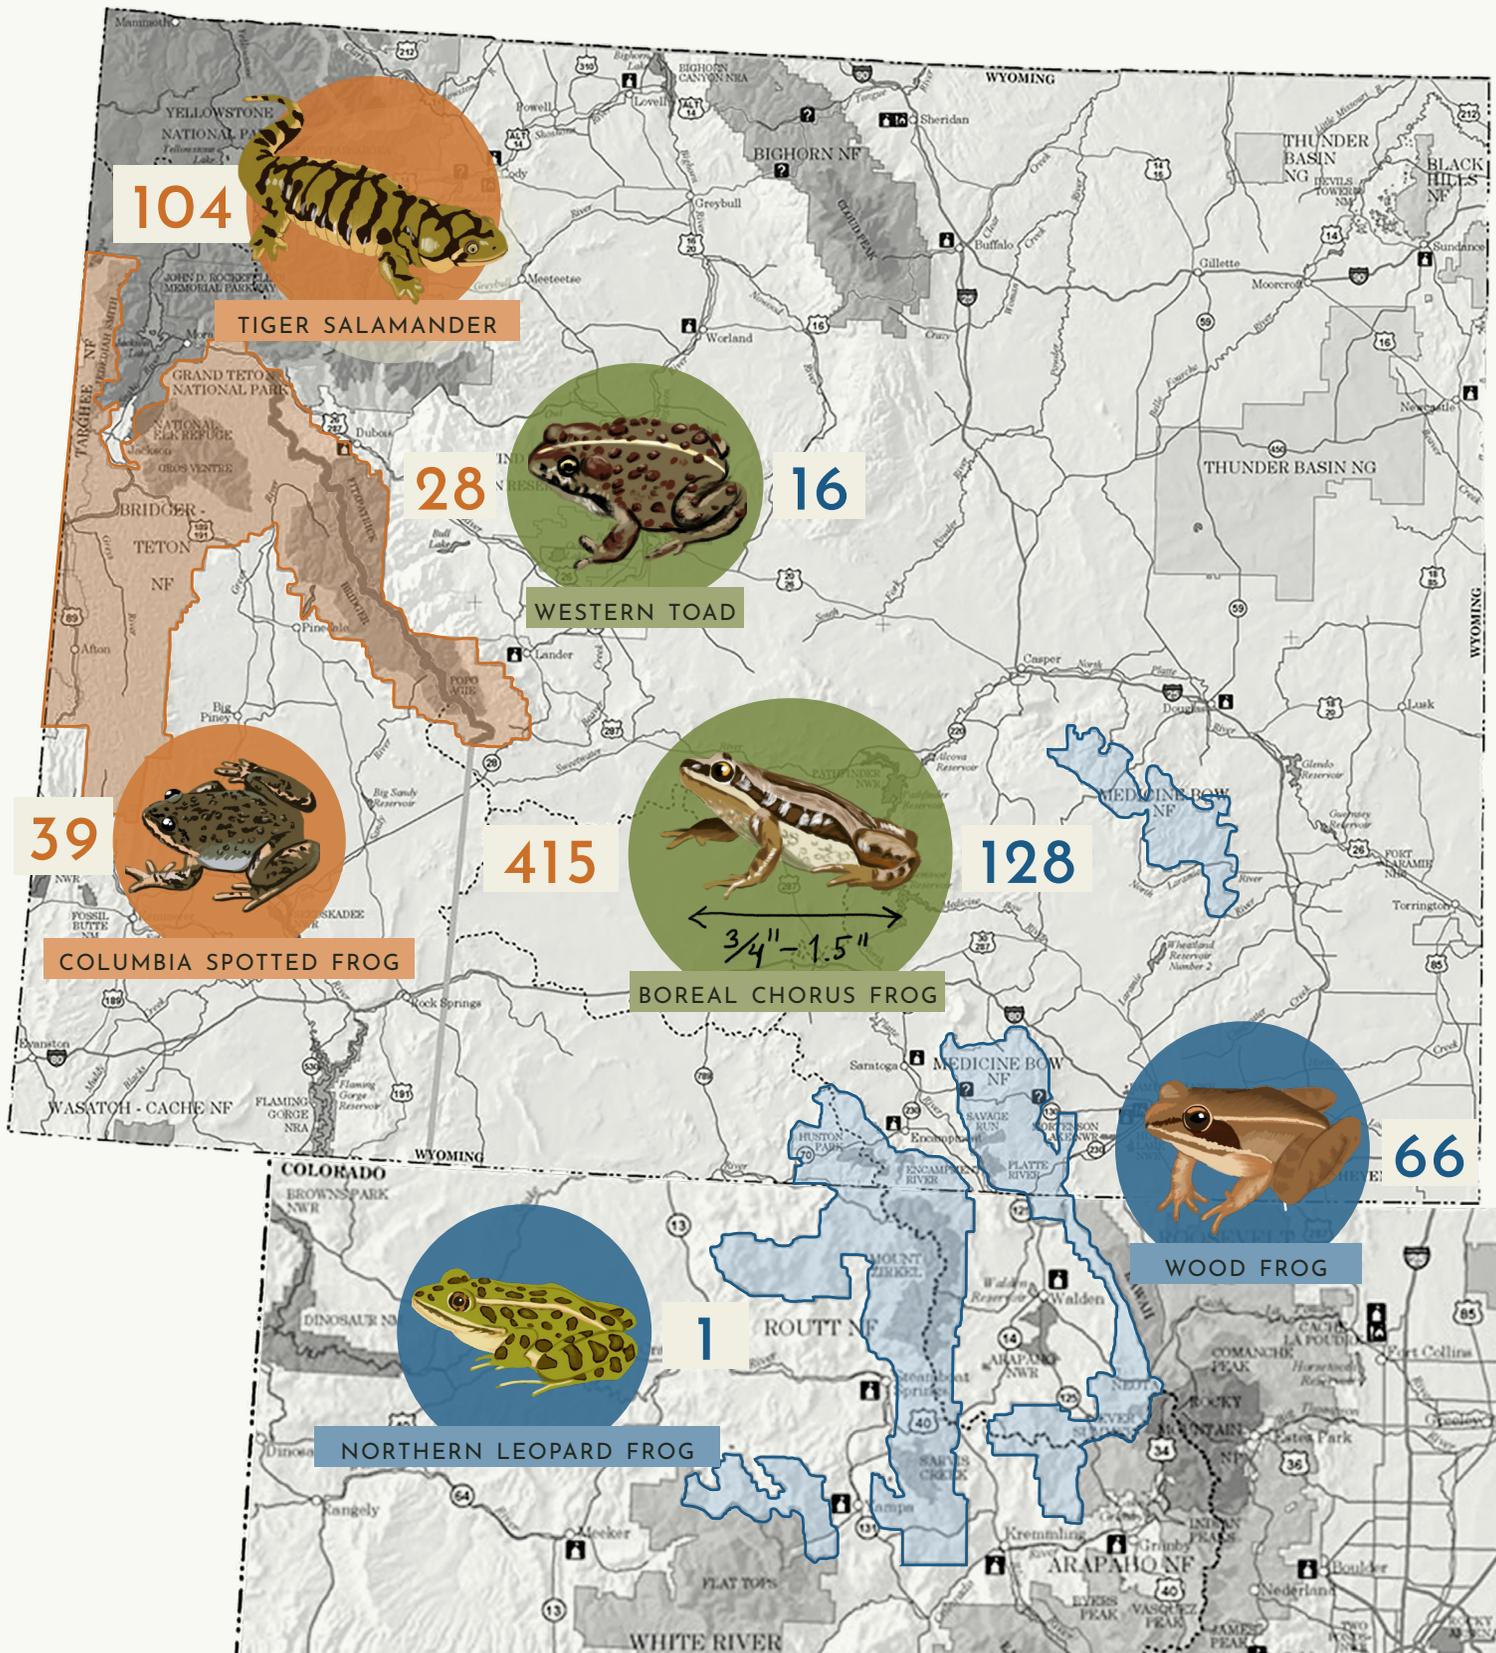

MB13\_4 Boreal Chorus Frog Eggs, Spencer Hurt

# AMPHIBIANS FOUND

\*not including tadpoles or egg masses

## WYOMING

map: [www.fs.usda.gov](http://www.fs.usda.gov)

- Bridger-Teton
- Medicine Bow-Routt

● Species found in both regions

**31** Number of individuals found  
(the color of the number indicates region)
